## INTERIM DIVIDEND

The Board has resolved not to declare an interim dividend for the six months ended 31 January 2023 (2022: nil).

## MANAGEMENT DISCUSSION AND ANALYSIS

### Financial Performance

For the period under review, the turnover of the Group slid to HK\$42 million (2022: HK\$64 million), and the gross profit declined by 20%, to HK\$35 million (2022: HK\$44 million). However, gross profit margin improved from 68% to 83% during the period.

The “Garment and Related Accessories Business” segment experienced a slow rate of recovery in the PRC and Hong Kong with the emergence of new COVID-19 variants in the beginning of the period. However, long-awaited border reopening with the PRC in January 2023 has fueled the retail market, which logged a double-digit growth in a single monthly revenue under same brand and shop basis. Overall, in the absence of “Lacoste” brand revenue after the termination of its distribution agreement in February 2022, the revenue of this segment, including the Mainland of China (“**Mainland**”), dropped by about 51% to HK\$18 million (2022: HK\$37 million). In spite of improvement of gross profit margin for this segment increasing from 47% to 64%, the segment result still recorded a loss of HK\$8 million (2022: profit of HK\$1 million), suffered by the negative impacts of COVID-19 for much of the period. The loss is expected to narrow down in the second half.

The “Property Investment and Letting Business” segment recorded a mild drop of rental income to HK\$24 million for the six months ended 31 January 2023 (2022: HK\$27 million). The revaluation of the investment properties held by the Group notched fair value losses of HK\$70 million during the period (2022: HK\$0.1 million).

Inflation has been escalating throughout the year 2022, owing to rising energy and food prices, supply chain disruption and rebounding global market demand. In response to consequential rising wages and prices, the Federal Reserve of the United States and other central banks tightened financial conditions with the introduction of the fastest and steepest interest rate hike cycle over the past few decades. This led to a higher net finance costs incurred of HK\$13 million for the period (2022: HK\$5 million). However, the gradual removal of quarantine restrictions has boosted the capital equity market in December 2022 and January 2023. As a result, the “Treasury Management” segment of the Group experienced a strong rebound and recorded a gain of HK\$10 million in the six months ended 31 January 2023 (2022: loss of HK\$6 million).

Taking into account the performances of the above three business segments with gain arising on transfer of property, plant and equipment to investment properties at fair value, net of tax of HK\$64 million (2022: nil), the total comprehensive expense attributable to the owners of the Company was HK\$16 million for the six months ended 31 January 2023 (2022: income of HK\$2 million).

## **“Garment and Related Accessories Business” Segment**

### Hong Kong and Macau

Hong Kong retail market has been shaky for much of the period, under the negative impact of the COVID-19 pandemic. The slow rate of recovering in customer spending power has led to the Group to take steps to negotiate with landlords for rent concession and to reduce inventory levels for our traditional brand, “Crocodile”. As at 31 January 2023, the Group operated 10 (31 July 2022: 10) “Crocodile” shops.

To achieve long-term sustainable growth and enlarge the customer base, the Group has deployed efforts in building another brand, “CROCO”, with a different brand image and unique brand identity. After the opening of one more new “CROCO” shop in Tsuen Wan in December 2022, the Group operated 2 “CROCO” shops as at 31 January 2023 (31 July 2022: 1).

Thanks to another batch of consumption vouchers in October 2022 and Mainland’s re-opening in January 2023, Hong Kong consumption market finally shook off the lingering effects of the pandemic. Excluding the revenue from “Lacoste” sales of HK\$18 million in last corresponding period after the termination of its distribution agreement, the retail revenue in Hong Kong and Macau increased by 16% to HK\$17 million (2022: HK\$15 million).

### The Mainland

Being threatened by the persistent COVID-19 pandemic in China, the operations of the Group’s retail stores in Mainland were severely impacted by strict lockdown measures in most of the period. Since December 2022, the mobility in major Mainland cities has been recovering after attaining the peak infections. This led to a sizable rebound in retail sales in January 2023. The overall retail revenue in the Mainland during the period dropped by 69% to HK\$1.3 million (2022: HK\$4 million). On the other hand, benefitting from the licensing of the prestige brand “Crocodile” in the Mainland, same level of royalty income of around HK\$5 million (2022: HK\$5 million) was still maintained for the period ended 31 January 2023 and was the major other income.

To cope with the harsh operating conditions, the Group monitored its own sales channels cautiously and remained prudent in extending its presence in new areas. As at 31 January 2023, there was a total of 12 shops in the Mainland, including self-operated shops of 6 and those operated by the Group’s consignees of 6, with the same shop portfolio as at 31 July 2022.

### Seasonality

As its track record shows, the sales and performances of the “Garment and Related Accessories Business” segment bear heavy correlation with seasonality. In general, more than 50% of this segment’s annual sales are derived from the first half of the financial year in which fall/winter collections of higher values and margins are rolled out, coupling with festive holidays – Christmas, New Year and occasionally, Lunar New Year.

## **“Property Investment and Letting Business” Segment**

The Group’s investment property portfolio remained intact since 31 July 2022 save for change of own-used manufacturing plant in the Mainland to investment property for the purpose of earning rental income since August 2022.

The investment properties of the Group in Hong Kong and the Mainland generated rental revenue for the six months ended 31 January 2023 of HK\$24 million (2022: HK\$27 million). The increasing supply of new office premises in Kowloon East and decreasing demand from office tenants in response to a more popular work-from-home model caused a drop in rental income of HK\$3 million or 12%, as compared to last corresponding period. As such, the revaluation of the investment properties held by the Group ticked fair value losses of HK\$70 million (2022: loss of HK\$0.1 million).

## **“Treasury Management” Segment**

Albeit global economic uncertainty, high interest rates and increasing tight liquidity conditions have weighed on investment activity during much of the period, conditions improved with global stock markets starting to pick up since November 2022. The gradual removal of quarantine restrictions globally has boosted investor confidence. It is expected that further relaxation of pandemic related restrictions on China would remove a distinct hurdle for both China and the global economy.

Mindful of the above circumstances and the increasing downside risk, the Group took a cautious approach to managing its portfolios of financial assets at fair value through profit and loss (“**FVTPL**”) in order to generate favourable returns for the Shareholders. The Group’s “Treasury Management” segment recorded a profit of HK\$10 million for the six months ended 31 January 2023 (2022: loss of HK\$6 million).

## **Prospects**

Looking ahead, the continued return of economy activity to normalcy and a further rebound in the number of tourists coming to Hong Kong would benefit the retail sector. In response to this, the Group equipped itself with a timely and robust funding through Rights Issue (“**Rights Issue**”) in November 2022 to secure favourable opportunities, including obtaining new retail shop leases during the period.

The Group will continue to gear up its efforts to improve its merchandise mix under both “Crocodile” and “CROCO”, catering for local customer preferences and maintaining higher gross margins, which has already been happening in the period.

As a landlord of investment properties, the “Property Investment and Letting Business” segment contributes stable rental income and cashflow to support the Group’s operations. It is expected there would be a solid year for office leasing demand driven by the recovery in Hong Kong and the Mainland; however, rental growth will be mild and take time to resume pre-pandemic level.

In view of an increase in supply of office premises in Kowloon East, the Group is repositioning the investment properties to attract new tenants in different industries both to improve the rental yield and minimise the vacancy rate.

## **Prospects** *(Continued)*

For treasury management, until there is firm evidence that interest rates have peaked, which is likely to emerge in mid of year 2023, the Group is adopting a prudent investment strategy to assess and make necessary adjustments to the portfolio in order to enjoy a favourable return with a relatively low risk.

Facing a combination of rising financing costs and global economic uncertainty, the Group intends to impose less reliance on debt financing under the prevailing market conditions and to reduce its current borrowings, if possible until such time as interest rates revert to more reasonable levels. The net proceeds from the Rights Issue would help cushion against increases in interest expenses and expected funding needs in short term.

With all the above factors in play, the Group is always mindful in preparation for the next 12 months of uncertainties, whilst is confident that the recovery road of our core business is on the right track.

## **Contingent Liabilities**

As at 31 January 2023, the Group had no material contingent liabilities.

## **Liquidity, Financial Resources and Foreign Exchange Risk Exposure**

The Group's financing and treasury activities are centrally managed and controlled at the corporate level. The main objective is to utilise the funding efficiently and to restrain the financial risks effectively.

The Group maintains a conservative approach in financial management by constantly monitoring its interest rate and foreign exchange exposures. Except for financial assets at FVTPL, the Group has not employed other financial instruments as of 31 January 2023.

The Group earns revenue and incurs cost mainly in Hong Kong dollars, Renminbi and United States dollars. The Group considers the foreign exchange risk is not high as the Group will consider the foreign exchange effect of the terms of purchase and sale contracts dealt with foreign enterprises and trading of overseas securities.

The Rights Issue announced by the Company in October 2022 on the basis of one rights share for every two existing shares of the Company at a subscription price of HK\$0.1 each was completed in November 2022. The total net proceeds of the Rights Issue, after deduction of rights issue expenses, was approximately HK\$42.3 million. As at 31 January 2023, the net proceeds from the Rights Issue were used as (i) HK\$3 million for repayment of the principals of the bank borrowings; and (ii) HK\$5 million for opening two new retail shops and day-to-day operations of the Group. The remaining net proceeds of HK\$34 million will be used according to the intended use.

Cash and cash equivalents held by the Group amounted to HK\$274 million as at 31 January 2023 (31 July 2022: HK\$278 million) and were mainly denominated in Hong Kong dollars, Renminbi and United States dollars. The pledged bank deposits of approximately HK\$4 million (31 July 2022: HK\$3 million) represent deposits pledged to banks to secure margin loans and are therefore classified as current assets. The cash and cash equivalent denominated in Renminbi as at 31 January 2023 were equivalent to HK\$4 million (31 July 2022: HK\$6 million) which is not freely convertible into other currencies. However, under the regulations on foreign exchange controls of the Mainland, the Group is permitted to exchange Renminbi for other currencies in respect of approved transactions through banks authorised to conduct foreign exchange business.

## **Liquidity, Financial Resources and Foreign Exchange Risk Exposure** *(Continued)*

As at 31 January 2023, the total outstanding borrowings including margin loans of the Group amounted to HK\$790 million (31 July 2022: HK\$838 million). The total outstanding borrowings comprised secured margin loans of HK\$6 million, secured bank term loan of HK\$574 million of which HK\$19 million was short-term, and secured short-term bank revolving loans of HK\$210 million.

Interests on bank borrowings are charged at floating rates. The bank borrowings of the Group are denominated principally in Hong Kong dollars and United States dollars. No financial instruments for interest rate hedging purposes were employed by the Group as of 31 January 2023.

### **Charges on Assets**

As at 31 January 2023, the Group has charged certain of its assets, including own-use properties, financial assets at FVTPL, investment properties and right-of-use assets with total carrying values of HK\$1,777 million, to its bankers to secure the borrowings, margin loans payable and banking facilities granted to the Group.

### **Gearing**

After the Rights Issue, the Group's gearing revealed by the debt to equity ratio (expressed as a percentage of total bank borrowings and margin loans payable of total net assets) as at 31 January 2023 dropped to 52% from 56% as at 31 July 2022. In view of the volatile worldwide economic and financial landscapes, the Group continues to be prudent for business development to contain its gearing within a suitable range for controlling its risk exposure and finance costs.

### **Capital Commitments**

The Group had no material capital commitments as at 31 January 2023.

### **Major Investments, Acquisitions and Disposals**

The Group had no major investments, acquisitions or disposals during the six months ended 31 January 2023.

### **Employees and Remuneration Policies**

The total number of employees of the Group, including part-time sales staff, was 113 as at 31 January 2023 (31 July 2022: 124). Pay rates of the employees are largely based on industry practice and the performance of individual employee. In addition to salary and bonus payments, other staff benefits include share option scheme, subsidised medical care, free hospitalisation insurance plans, provident fund benefits, subsidised meals, staff discount on purchases, internal training for sales staff and external training program subsidies.

## PURCHASE, SALE OR REDEMPTION OF THE COMPANY'S LISTED SECURITIES

During the six months ended 31 January 2023 (“**Period**”), neither the Company nor any of its subsidiaries had purchased, sold or redeemed the Company's listed securities.
